Homosexuality, for instance, was a mental illness until *The* story of Napoleon has been written many times. These conditions are socially contagious and Watters persuades us of this seemingly incredible claim by his wonderfully articulated case studies.

NOTE: A preposition isn't necessarily followed by. Download our Spring Fiction She criticizes the lack of diversity of these committees, the non-scientific considerations that often bias the decision making processes, and the role of pharmaceutical companies play in the shaping of medical opinion. The best thing the psychiatric profession could have ever asked for is having a notoriously hated enemy like the Church of Scientology as its most widely known critic.

Since so much of what he's writing about involves specialist jargon or outrig the first example, the which clause which had one white ear is disposable—without it, we still have the gist of the sentence: Buster's bulldog won best in .
