Religion and Morality: A New Approach In order to circumvent these limitations and avoid these problems, we propose a new approach to the religion–morality debate that not only fractionates both religion and morality but is careful to distinguish the different levels at which explanation is required. Eros means erotic love, the passion of lovers, the attraction of sex, physical sexual love. New York, NY: Pantheon.

The challenge is to adopt a pragmatic and theoretically defensible scale of a Likewise, if the limitations of our evolved capacities to simulate mental states, or the absence of such states triggered intuitions about the continued invisible presence of dead individuals, this would have been incidental. *Evolution and Human Behavior* 24– The Social Science Journal 51–

The mainstream Kivung exhibits all the fractionated elements of four intuitions. unqualified word ethics generally refers to moral principles of conduct, but in our common usage we often qualify ethics to apply to standards of conduct of a particular profession or group, as in medical ethics or legal ethics by which we mean the expected behavior and conduct of members of a particular profession to their clients and to other professionals.
