However, most of the research work in the literature has been primarily focused on the analysis of gait patterns under normal walking conditions. The two cameras were placed equidistant with respect to the main axis of the stage, and they were focused to have an adequate view of at least three steps. Variations on a theme of Mozart, op. Yodelling the Classics, Vol. However, very few works have considered the analysis and characterization of gait profiles under different walking conditions as they may usually occur in real life situations; for example, ascending a slope, walking with high-heel shoes, walking while carrying a load.
